CLINICAL EXPERIENCE

BUENA VIDA REHABILITATION & NURSING CENTER, Brooklyn, NY

Unit Nurse Director, October 2024 – January 2026

- Directed daily nursing operations for a high-volume sub-acute rehabilitation unit, ensuring compliance with NYS DOH, CMS, and facility standards.
- Supervised and mentored a multidisciplinary team of RNs, LPNs, and CNAs, supporting professional growth and consistent patient-centered care.
- Designed and led staff education programs, including in-service trainings and competency-based workshops on clinical best practices, infection prevention, and safe medication administration, strengthening team-wide clinical skill.
- Coordinated interdisciplinary care planning, leading case conferences and family meetings to align treatment goals with patient and family priorities.
- Oversaw infection prevention, safe medication administration, and quality assurance protocols to support measurable improvements in patient outcomes.

AMSTERDAM REHABILITATION & NURSING CENTER, New York, NY

Charge Nurse, April 2024 – July 2024

- Provided direct patient care including medication administration, wound care, and preventive health education.
- Monitored patient progress through ongoing assessment and coordination with therapists, social workers, and physicians.
- Implemented infection control and wound care protocols to maintain a safe clinical environment.
- Connected patients and families with community resources to support safe discharge and continuity of care.

MEDICAL TRAINING INSTITUTE OF NEW YORK, New York, NY

Nurse Instructor, January 2024 – May 2024

- Developed and delivered the CNA curriculum, building a foundation of clinical skills, ethical practice, and professionalism.
- Led hands-on skills labs and competency evaluations preparing students for state certification.
- Mentored students through clinical rotations, reinforcing patient safety, infection control, and documentation standards.

MARY MANNING WALSH, ARCHCARE, New York, NY

Charge Nurse, January 2024 – April 2024

- Led nursing operations on a fast-paced sub-acute rehabilitation floor, directing shift assignments and admissions.
- Supervised licensed and unlicensed staff, escalating clinical changes and maintaining documentation standards.
- Served as primary liaison between nursing staff and interdisciplinary team during patient admissions and transfers.

BAYADA PEDIATRIC HEALTH CARE, Wilmington, DE

Pediatric Registered Nurse, December 2022 – July 2023

- Delivered 1:1 high-acuity care for medically complex pediatric patients in the home setting, including tracheostomy management, ventilator support, and ostomy care.
- Developed and implemented individualized care plans and ensured effective delivery of prescribed treatments.
- Educated families on equipment use, medication administration, and emergency response.

CHRISTIANA CARE HEALTH SYSTEMS, Newark, DE

Nurse Extern, COVID-19 ICU & Neurology Step-Down, July 2019 – July 2021

- Supported high-acuity COVID-19 ICU and neurology patients during the pandemic, adhering to CDC and WHO infection control protocols.
- Provided continuous monitoring including vitals, blood glucose, oxygen, and ventilator support, and used specialized technology for patient safety and stroke recovery.
- Assisted registered nurses with assessments, documentation, and bedside care while gaining exposure to rapid clinical decision-making in acute care settings.

GLOBAL HEALTH & INTERNATIONAL EXPERIENCE

HAMLIN FISTULA HOSPITAL, Addis Ababa, Ethiopia

Clinical Observership, July 2026 – September 2026

- Scrubbed in on obstetric fistula repairs, uterine prolapse repairs, and other obstetric related surgeries alongside attending surgeons.
- Provided pre-operative and post-operative nursing care including patient assessment, wound monitoring, and patient education.
- Rotated through OBGYN services and engaged with the Center for International Reproductive Health Training (CIHRT).

KING FAISAL HOSPITAL, Kigali, Rwanda

Clinical Research Observership, July 2026 – August 2026

- Completed clinical observership across the Emergency Department, pediatric units, and OBGYN services within a tertiary referral center.
- Conducted internal research on nosocomial infection control practices and presented findings to medical staff and hospital leadership.
- Developed and delivered nurse training based on research outcomes to strengthen unit-level infection prevention protocols.
- Participated in multidisciplinary Ebola preparedness planning meetings alongside clinical and public health teams.

UNIVERSAL SERVICES DEVELOPMENT WORKFORCE, Addis Ababa, Ethiopia

Healthcare Sector Development Advisor, July 2023 – January 2024

- Assessed healthcare delivery systems and identified gaps in workforce capacity across regional health facilities.
- Collaborated with government stakeholders to develop strategic recommendations for healthcare workforce expansion.
- Developed plans for a Continuing Professional Development Center to support ongoing training for the national healthcare workforce.

YANET COLLEGE, Addis Ababa, Ethiopia

Adjunct Instructor, August 2023 – January 2024

- Designed and delivered lectures and clinical simulations in pediatric and neonatal health, aligned with WHO guidelines and national standards.
- Collaborated with faculty to develop and refine the pediatric and neonatal nursing curriculum to address local public health needs.
- Held tutoring and mentoring sessions to support student comprehension and clinical readiness.

ONE DAY SEYOUM, London, UK / Remote

Refugee & Humanitarian Aid Lead, August 2018 – Present

- Coordinate health education and resource distribution for refugee populations across Sub-Saharan Africa.
- Deliver education on diabetes management, infection prevention, and safe medication practices to migrant communities.
- Assess needs of refugee communities and direct resource allocation to address gaps in healthcare access.
